

LO: To recap word classes using a piece of writing.

Challenge 1: Use colours/table to find nouns, adjectives and verbs in the piece of writing.

N.B: Do not worry if you don't have a printer. You can just make a list of the different ones you find, like you will see on the video! I have displayed a little table below that you can draw onto a sheet of paper.

Nouns	Adjectives	Verbs

Next week, you will be using your words that you have collected to write your own story about the video. :). I can't wait to read them.

LO: To recap word classes using a piece of writing.

It was a beautiful, sunny day. The bright sun was shining in through the huge window. I dashed downstairs and sprinted outside. I saw that my favourite pet had gone. I felt sad because I did not know where he was.

I looked in the tall trees and in the huge field, but I couldn't find him. When I sat on the swing, I thought about how I could get him back. All of a sudden, I had a clever, fantastic idea.

I made some bright, colourful posters to put on tree trunks and post at houses. I travelled everywhere, but nobody had seen my him. I started to think I'd never find him.

Just when I thought that I'd never see him again, his long, orange nose popped onto my arm. I was ecstatic. I wonder where he had been?

Nouns (people, places, things)

Adjectives (describing words)

Verbs (doing words)
