Year 6 Weekly Learning Overview

Maths:

Each week, your teacher will upload a tutorial video along with worksheets for the Year 6 maths strands that we haven't covered in class to best prepare you for high school. Also, you will have a weekly arithmetic to access and consolidate your skills. Please complete these tasks every week so that you continue to develop and consolidate your Maths skills.

English:

Each week, your teacher will upload a reading comprehension to consolidate your reading skills from this year. Also, you will have a weekly worksheet to focus on ONE particular reading skill and one spelling practice worksheet each week.

As writing is extremely important in this term of year 6, you will also have a BIG WRITE task to complete focusing on a different stimulus- this will be changed every two weeks. Please ensure that you refer to our Year 6 writing standards sheets to make sure you are including all of the expectations for high school.

Extra:

A 'Home Learning Log' will also be added to the website every week - here, there will be a variety of activities for you to complete linked to different subjects. For year 6, these activities will focus on transition to high school along with your life at St.Catharine's. If you can complete at least one of these each week, that would be great!

Finally, teachers will be adding some fun activities onto Purple Mash - please keep a look out for these!

Daily learning activities:

* *Reading - a book, magazine, newspaper, comic*

* *Time Table Practice*

* *PE with Joe Wicks - 30 minutes*

* *Purple Mash spelling tasks*

Should you wish to access any online resources, here are some useful websites:

* *TWINKL*
* *White Rose*
* *Class Room Secrets*
* *Plan Bee*
* *Oxford Owl for Home*
* *Ruth Miskin - Help During School Closure*
* *The Literacy Shed*
* *BBC Bitesize*
* Topmarks
* Linguascope
* Sumdog
