

Home Learning Log

01.06.2020

Our WOW activities will focus on the other areas of learning within our early year's curriculum. These areas are so important, as they help us to grow as a whole, not just helping our brains to grow!

The areas in our learning are:

Personal, Social and Emotional

Communication and Language

Physical Development

Literacy

Mathematics

Understanding our World – our focus this week!

Expressive Arts and Design

Science Experiments at home!

Dissolving

You will need:

Water (hot and cold)

Transparent containers

Lots of different things to dissolve:
sand, mud, sugar, salt, coffee, tea from teabag

Method:

Remember: always predict first!

1. Add a teaspoon of whichever solid you are testing to a glass of cold water and a glass of hot water, stir and observe the difference.
2. Look to see if the solid dissolves in the hot water and the cold water and discuss if one water is better than the other – why do we think this?
3. Do you think you could design a chart to record your observations?

Science Experiments at home!

Fireworks in a Glass

You will need:

Oil

Warm Water

A tall transparent glass

Food Colouring

Method:

Remember: always predict first!

1. Fill the tall glass/jar with warm water
2. Pour a small amount of oil into another container and add a few drops of food colouring
3. Give it a good stir, if it doesn't mix, add a bit of water
4. Pour the food colouring and oil mixture into the warm water and watch the fireworks
